DETAILED ACTION

Status of Claims

1. This action is in reply to the application filed on 03 September 2004.
2. Claims 1-71 are restricted.

Election/Restrictions

3. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-52, drawn to generating a single use on-line transaction that disables re-use of the transaction and checks for sufficient funds in the bank account and confirms the transfer of funds.

Group II, claim(s) 53-71, drawn to providing a user with a single use identification code, verifying the code and user identity and authorizing the financial transaction.

4. The inventions listed as Groups I & II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Group I, the merchant sends a payment request, the payment manager sends a EFT request to a financial institution to transfer the value in funds from the users account to the merchants account. Group II, the user is registered with an identification code. The code and user identity is verified and the financial transaction is authorized.
